Material alternatives are crucial to provide high performance and light weight.

Adapto® is the new material specifically developed by Manfrotto for both collars and spider castings of the 1051BAC MINI COMPACT STAND and the 1052BAC COMPACT STAND.

Adapto® is a special technical polymer that is comparable to aluminium in strength, but is 50% lighter. Adapto® is an ideal material for photo imaging equipment as it has superb resistance to extreme temperatures and will not corrode or oxidize. Additionally, Adapto® is an excellent vibration absorption material, making our equipment the ultimate in vibration free shots.

New Adapto® collars are made from a single locking component, ensuring better performance and easier maintenance.

BLACK ALU AIR CUSHIONED COMPACT STAND 1052BAC

Aluminium stand, air cushioned. 3 sections, 2 risers.
Ø: 25, 22, 19mm. Leg Ø: 19mm.
